About Reach Out and Read Colorado:

Reach Out and Read Colorado partners with healthcare providers to encourage families with young children to read aloud together, building a foundation for success.

Reach Out and Read Colorado empowers healthcare providers to talk with parents of young children about the importance of reading aloud at health check-ups with a special focus on children growing up in poverty. By building on the unique relationship between parents and healthcare providers, Reach Out and Read Colorado helps families and communities encourage early literacy skills, so children enter school prepared for success.

Since 1997, Reach Out and Read Colorado has provided our state's youngest children with this foundation for success, now providing early literacy intervention for over 130,000 children from all 64 Colorado counties.
